

THE CHARITES

Ring Size Guide

Finding the Perfect Fit

Size a Finger

Please note that The Charites London uses UK sizing, that you can also find in the ring size table.

STEP 1:

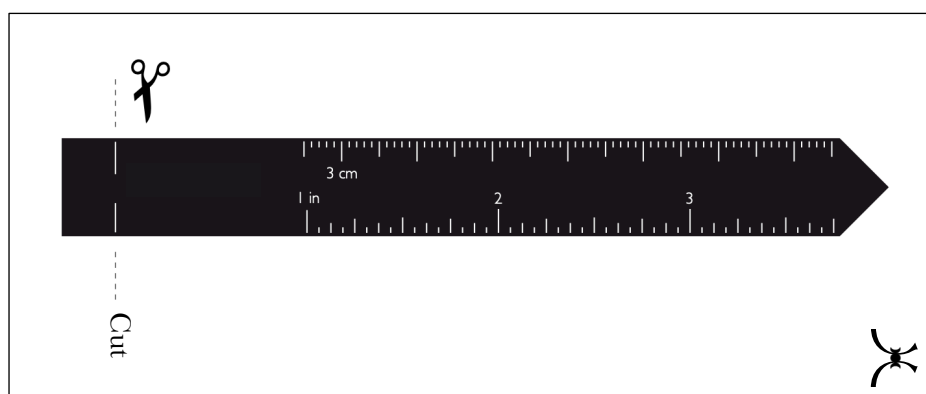

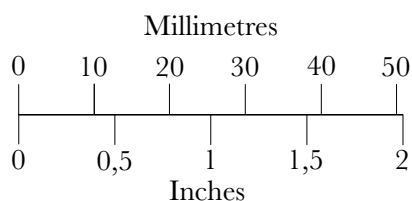

Make sure the "Scale to fit" option in the print dialogue box is unchecked. Use a ruler to check that the ring conversion chart is scaled to 100%.

STEP 2:

Please cut around the tape measure outline. Wrap the measure around your finger, note the measurement and consult to The Charites London ring size table to determine your ring size. Make sure the paper can easily slide up and down your finger; the width of the ring will grasp your finger more than the paper.

STEP 3:

If you're between sizes, we'd recommend going for the bigger size. The letter that fits best within the circle, is your ring size.

**This is for reference only. The Charites London cannot be held responsible for any errors that occur as a result of measuring your finger.*
